PETITION FOR WITHDRAWAL OF HOLDING OF ABANDONMENT
PURSUANT TO 37 CFR 1.181

To the Commissioner for Patents:

Applicant received a Notice of Abandonment dated December 22, 2004 for the above-referenced application. A copy of the Notice is enclosed herewith. The Notice of Abandonment indicated that the application became abandoned for "failure to timely file a proper reply to the Office letter mailed on March 15, 2004." However, Applicant did not receive the Office Action mailed on March 15, 2005. Thus, Applicant hereby petitions the Commissioner to withdraw the holding of abandonment of the current application and re-issue the Office Action originally mailed on March 15, 2004.

In support of this petition, Applicant is enclosing herewith a print-out of its docket records for this file. As can be seen from this print-out there was no docketing of any action

mailed on March 15, 2004, which would have had a three-month response date of June 15, 2004 and a six-month response date of September 15, 2004.

Applicant is also enclosing a print-outs of the docket record for its attorney from June 5, 2004 to June 25, 2004 (the period ten days prior to the three-month response date to ten days after the three-month response date) and from September 5, 2004 to September 25, 2004 (the period from ten days prior to the six-month response date to ten days after the six-month response date) to show all responses due by Applicant's attorneys' firm on and around the three month due date of June 15, 2004 and the six-month due date of September 15, 2004. It is noted that these docket records indicate that the Office Action dated March 15, 2004 for the above-referenced application was not received.

Applicant is also enclosing a copy of the cover of its file jacket for this application, which reflects the docketing for this application. Had the Office Action of March 15, 2004 been received by the Applicant, the docketing records on the Applicant's file jacket would reflect docketing for a response due three months from the mailing date of the Office Action (namely, June 15, 2004) and six months from the mailing date of the Office Action (namely September 15, 2004). As can be seen, no such docketing was done for this application.

Also enclosed herewith is a statement by Applicant's undersigned attorney in support of the current petition.

In view of the foregoing, it is respectfully requested that the current application be reinstated and the Office Action originally mailed on March 15, 2004 be re-issued and the response time for such Office Action re-set.

It is believed that no fee is due with this petition. However, if any fees are due with this paper, the Commissioner is hereby authorized to charge such fees to Deposit Account No. 50-1290.

Please direct any inquiries regarding this petition to the Applicant's undersigned attorney, who may be reached directly by telephone at (212)940-8712.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'Linda S. Chan', written over a horizontal line.

**STATEMENT IN SUPPORT OF PETITION FOR WITHDRAWAL
OF HOLDING OF ABANDONMENT**

I, Linda S. Chan (Reg. No. 42,400) declare that:

1. I am the Applicant's attorney for the above-referenced patent application.
2. The enclosed docket records show all actions docketed for the above-referenced application and all responses docketed as due by our firm in the time periods from June 5, 2004 to June 25, 2004 (the period ten days prior to the three-month response date to ten days after the three-month response date) and from September 5, 2004 to September 25, 2004 (the period from ten days prior to the six-month response date to ten days after the six-month response date).

3. I searched our office's file jacket for this application and the docket records for our firm (as reflected in the enclosed print-outs) and the file jacket and docket records indicate that the Office Action mailed on March 15, 2004 was not received by our firm.
4. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Date of Interview: 28 September 2004.

Type: a) ☒ Telephonic b) ☐ Video Conference
c) ☐ Personal [copy given to: 1) ☐ applicant 2) ☐ applicant's representative]

Exhibit shown or demonstration conducted: d) ☐ Yes e) ☒ No.
If Yes, brief description: _____.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

The examiner contacted the attorney to confirm that the application was being abandoned intentionally. The attorney stated that a change of address had been submitted, but there was no evidence of this. Consequently, the application is abandoned, although the attorney indicated the intention to petition to revive.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW: (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews

Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of Interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.
